PILES, TETTED BARBERS' ITCH. Any skin disease completely eradicated. A sufferer literally covered is cheared off and permanently oured in 45 days' time-a new skin practically was grown-no pain-amarting or itching during the cure. **WE VOUCH**

FOR THIS

shows here, photographed in his dis-eased condition, (psoriasis, a species covered. The trouble started in three small spots and did not spread beyond this for eight years. Then it suddealy raged all over. It raged more or less in this way

for ten years, and was afterward entirely cleared away in about 6 weeks time by D. D. D. and no taint of the disease has appeared since-over two We know this to be exactly as stated.

Wooldridge & Purdy

This result can be accomplished with any skin affection. Barrels of blood medicine can do nothing for a skin discase. Nine out of ten manifestations in the skin are local,—parasitic in nature and absolutely curable by this new prescription. D. D. D. is a clean liquid prescription sopped or atomized over the affected spots twice daily.

This preparation has our unqualified endorement. We are recommending it with most excellent results. The cures already effected are having wide-spread influence in this section. If you have a skin affection-ceme to the store, it will be the means of making you a happier human being.

G. L. Ferris, M. L. Long, T. F. Roden L. R. Ferris, J. B. Grabam, L. Allison We have also secured the and J. O. Mundy, asking for the es tablishment of a district sewer beginning at Love and Washington streets referred to the two members of the noil from the First Ward and the city engineer. Physician, Dr. C. T. Varnon. applies to local effort.

Government, the State and the combeen raised, but it must be swept aside. The inexorable verdict of time tion-sometimes by ballots, once by blood. Against this interpretation it is final. Precedent points the way for national aid, long established, time-honored. It is a question of expediency. It is something more than that. The query into which the matter has resolved itself is this: 'Will the farmer claim his own?"

Read this from Congressman Brownlow, the most active and forceful advocate of the national aid plan. He was asked if the appropriation of a large sum by Congress to aid the states in road improvement would not prove startling to the people as an entirely new line of national expenditure. He thus answered:

"That the proposition is new in one ense I concede. The idea of appropriating Government funds to be spent n the rural districts for the direct benefit of the country people is decid-edly new. Heretofore the principal relation which the farmers have susif I am not mistaken the farmers are oming to the same conclusion.
